**RISK MANAGEMENT  
IN ROCK ENGINEERING**

Skopje, 15-19.9.2026

Venue: hotel ALEKSANDAR PALACE in Skopje

November 2025

Dear Colleagues,

Warm greetings from the Macedonian Association for Geotechnics (MAG), the Macedonian National Group of the International Society for Rock Mechanics and Rock Engineering (ISRM)!

It is our great pleasure and honor to invite the global rock mechanics and rock engineering community to the **ISRM Regional Symposium – EUROCK 2026**, to be held **15–19 September 2026** in **Skopje, R. N. Macedonia**. We warmly welcome scientists, researchers, professionals, companies and accompanying persons to join us for this significant international gathering at the heart of the Balkans.

The **central theme**, “**Risk Management in Rock Engineering**” reflects our shared commitment to enhancing safety, sustainability, and resilience in engineering practice. The technical program will highlight innovations, applied research, and global case studies, encouraging dialogue across disciplines and sectors. We aim to bring together engineers, designers, consultants, researchers, and academics to promote collaboration and inspire new solutions for tomorrow’s challenges.

EUROCK 2026 will feature a diverse and dynamic program, including technical sessions, workshops, short courses, industrial exhibition, and technical excursion. A RockBowl competition and paper and poster awards will engage young researchers and students, while a dedicated accompanying persons program will offer cultural tours, excursions, and social gatherings. Delegates will also enjoy the Gala Dinner and other memorable networking events celebrating Macedonian hospitality, cuisine, and tradition.

The conference topics will encompass, but are not limited to: Risk assessment and mitigation methods; rock properties and testing (including planetary rock mechanics); design and analysis methods (including EC7); rock dynamics, crustal stress, and earth/marsquakes; environmental and mining applications; climate change implications; geotechnical aspects of soft rocks and hard soils; cultural heritage rock mechanics; Artificial Intelligence and Machine Learning applications; case histories; and education and training in rock mechanics.

Recent EUROCK symposia have attracted 300–400 international participants, occasionally exceeding 500 in particularly active years. Number of expected domestic delegates from Macedonia is around 150-200, reflecting the strong local engagement in this field.

At present, across the Balkans, Europe, and the world, major infrastructure investments are transforming the landscape — including highways, railways, dams, landfills, mining operations, gas pipelines, and renewable energy projects such as emerging petrothermal energy sites. Many of these developments are located in mountainous, seismically active, and geologically complex rock environments. Consequently, engineers are constantly challenged to manage risks in rock engineering, making the exchange of knowledge and experience through EUROCK 2026 especially relevant.

Therefore, the Organizing Committee of the EUROCK 2026 warmly invites companies related to all of the above mentioned sub-fields of Rock Engineering and Rock Mechanics to attend this event through the exhibition, sponsorship opportunities and with technical papers.

We sincerely look forward to welcoming You and Your company to Skopje in September 2026 — and to the many professional connections that may bring you together with colleagues again on project sites across Europe and beyond!

*Organizing Committee of EUROCK 2026*

## SPONSORSHIP AND EXHIBITION OPPORTUNITIES

Level	Rate (€)	Package Includes
<b>Diamond</b>	6,000	2 registrations & 2 Gala Dinner tickets; Logo on conference materials, website, and in Proceedings; 4x2 m <sup>2</sup> exhibition booth* in prime location; Logo on screen during breaks; 1 min promotional video during breaks; scientific paper presentation in one plenary session; one double room with breakfast for accommodation of staff for 4 nights (15–19 Sept).
<b>Basalt</b>	4,500	2 registrations & 2 Gala Dinner tickets; Logo on conference materials, website, and in Proceedings; 4x2 m <sup>2</sup> exhibition booth*; Logo on screen during breaks; 1 min promotional video during breaks; one double room with breakfast for accommodation of staff for 4 nights (15–19 Sept).
<b>Granite</b>	3,000	2 registrations & 2 Gala Dinner tickets; Logo on conference materials, website, and in Proceedings; 3x2 m <sup>2</sup> exhibition booth*; Logo on screen during breaks.
<b>Quartzite</b>	2,000	1 registration & 1 Gala Dinner ticket; Logo on conference materials, website, and in Proceedings; 2x2 m <sup>2</sup> exhibition booth*; Logo on screen during breaks.
<b>Marble</b>	1,500	1 registration & 1 Gala Dinner ticket; Logo on conference materials, website, and in Proceedings; Logo on screen during breaks.
<b>Travertine</b>	500	Company logo on conference materials, website, and in Proceedings; Logo on screen during breaks.

\*print of booth walls and logotype is not included, but is available on request.

## EXHIBITION BOOTHS

Option	Rate (€)	Package includes
<b>Booth rental</b>	300 €/m <sup>2</sup>	minimum 4 m <sup>2</sup> = 1,200 € (each booth is 2 m × 2 m in size) Free lunches, coffee-breaks and conference bag with materials for one person

- there is possibility for joining of two neighboring booths (8 m<sup>2</sup>)
- reservations will be made according to the order of registration
- booth availability will be timely updated on an interactive exhibition hall map on the [web site](#)
- print on an adhesive PVC layer over the walls is possible at a rate of 18 €/m<sup>2</sup>
- graphic preparation of the print is obligation of renting company (Corel Draw, Adobe Illustrator, PDF)
- exact dimensions for printing will be instructed by the booth renting company.

### Booth contents

- Octawalls
- Infopult
- Leaflets holder
- Table with chairs  
(2 chairs for booth type 2x2,  
3 chairs for booth type 3x2)
- Garbage bin
- Logotype table – 1.5 m x 0.30 m (print on adhesive PVC layer is not included but is available on request)
- Light
- Electricity supply, three phase cable

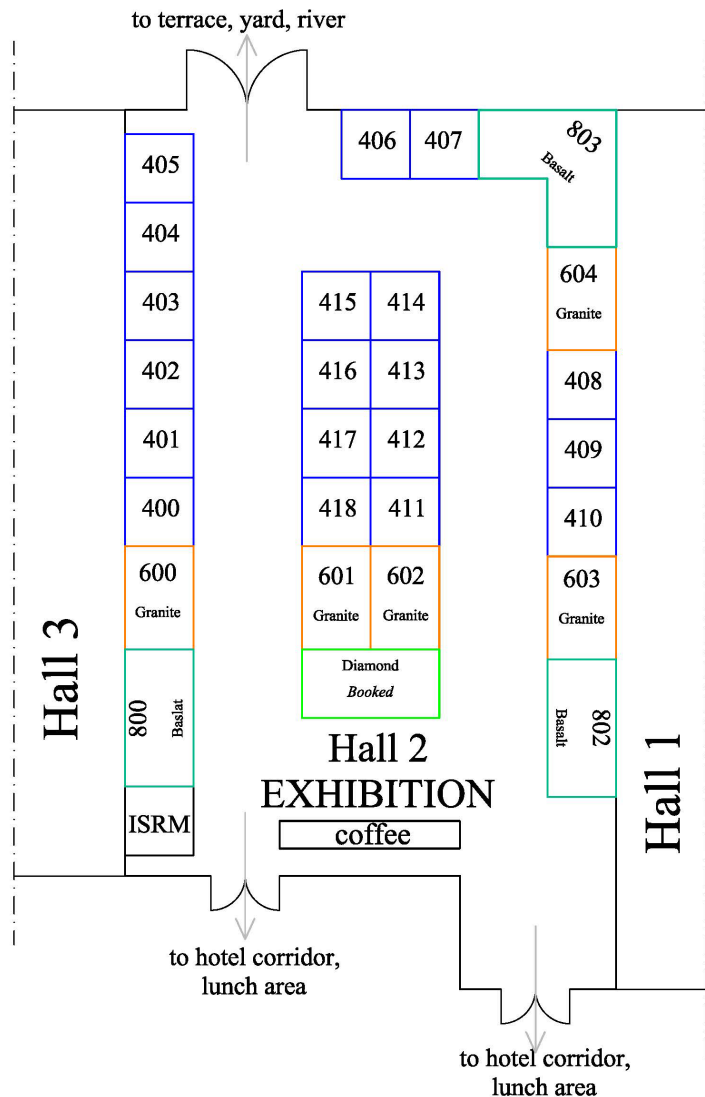

Type 2x2 (4 m<sup>2</sup>)

Type 3x2 (6 m<sup>2</sup>)

## Provisional plan of booths\*

Legend:

80x - booth with 8 m<sup>2</sup> area; Diamond/Basalt

60x - booth with 6 m<sup>2</sup> area; Granite

4xy - booth with 4 m<sup>2</sup> area;

\*booth availability will be timely updated on an interactive exhibition hall map on the [web site](#). Please check current availability before proceeding with filling of the application.

## OTHER SPONSORSHIP OPPORTUNITIES

Opportunity	Rate (€)	Package Includes
Coffee Break	1,500	Roll-up banners and flyers displayed on tables during one coffee break (in exhibition hall); Company logo included in Conference Proceedings.
Welcome Reception	3,000	Roll-up banners and flyers displayed during the Welcome Reception; Company logo included in Conference Proceedings.
Lanyard	3,000	Company logo printed on delegate name lanyards; Logo included in Conference Proceedings.
Conference Bag (logo)	4,000	Company logo printed on official conference bags distributed to all participants; Bags provided by the organizer, logo supplied by the sponsor; Logo included in Conference Proceedings.
Gala Dinner	6,500	Roll-up banners displayed during the Gala Dinner (by arrangement); Company logo shown on screen during dinner; 3 registrations and 3 Gala Dinner tickets; Verbal acknowledgment and appreciation during the event; Logo included in Conference Proceedings.
